

# Conscious Conception™

A workshop for men and women who want to offer their baby the best possible life by preparing themselves for the miraculous, and vitally important moments during conception and pregnancy.

The desire to parent a child can inspire transformation. Often people yearn for a healthier lifestyle that will benefit their baby. Conscious Conception begins with your intention to invite a child into your family. As you refine your intention for the highest good, and practice communicating your intention, you will experience a shift within yourself—an alignment with your intention and a receptivity to the response of the Universe!

During this class, participants will:

- \* Create and practice their intentions for welcoming a child into their family (and have an opportunity to share them with the group, if they wish)
- \* Learn which foods and supplements best prepare your body for conception and nourish you and your baby throughout pregnancy
- \* Learn how to create a healthy, non-toxic living environment and how to avoid environmental impediments to conception
- \* Learn and practice an Intimacy / Connecting Exercise
- \* Learn and practice part of Marla Apt's yoga sequence that helps prepare the body, mind and spirit for conception
- \* Learn a simple meditation technique
- \* Meet like-minded people who might become part of your community
